PRESS RELEASE

Local Home Manufacturer Honored by National Awards Program

For immediate release, January 4, 2018 - Middleburg, PA: Log & timber home manufacturer, Timberhaven Log & Timber Homes, LLC, received several national home building accolades as part of the 2018 Jerry Rouleau Awards for Excellence in Marketing and Home Design presented by the National Association of Home Builders (NAHB) Building Systems Councils (BSC) and the Log and Timber Homes Council. Timberhaven Log & Timber Homes was honored earlier this fall during the BSC's Building Systems Housing Summit, the only national conference focused exclusively on entire the systems-built industry.

The annual Jerry Rouleau Awards for Excellence are judged by an independent panel of industry experts, and companies like Timberhaven were praised for the quality of their submittals. The awards recognize companies that excel in manufacturing and building modular, panelized, log, concrete and timber frame homes. Recipients were recognized for excellence in achievement in a range of categories such as informative and aesthetically-pleasing websites, along with floor plan designs categorized by systems-built type and square footage. Timberhaven earned the following awards:

- **Winner: Excellence in Home Design** – Under 2,000 sq. ft. [Bierman Log Cabin](#)
- **Home of Distinction: Excellence in Home Design** – Over 2,000 sq. ft. [Kortze Log Home](#)
- **Winner: Excellence in Marketing:** Website TimberhavenLogHomes.com
- **Winner: Excellence in Marketing:** Presentation of Plans LogHomeDesignCenter.com
- **Winner: Excellence in Marketing:** Social Media Effort [Facebook](#), [YouTube](#), [Pinterest](#), [Twitter](#) & [G+](#)

"We are proud to honor the year's best in marketing and home design in the systems-built industry," said Norm Hall, BSC chairman and factory-built structures industry manager for Simpson Strong-Tie. "The systems-built industry continues to grow, and this was reflected in the increased number of entries we received. We're also pleased to see that this year's award winners represent each of the five manufacturing disciplines that make up the BSC."

"What a tremendous honor it is to be named recipients of Jerry Rouleau's prestigious awards." says Joe Folker, principal at Timberhaven Log & Timber Homes. "We appreciate these accolades and are truly obliged for the great recognition given to Timberhaven by the BSC. This is an auspicious moment for the Timberhaven Team and look forward to sharing our award-winning projects with log & timber home enthusiasts around the world."

ABOUT TIMBERHAVEN: Timberhaven Log & Homes, LLC provides quality, affordable kiln-dried log homes and log cabins. The company is known for taking great time and energy to make sure that every attention to detail has been met to provide the best value there is in log home living. Timberhaven's highly trained and skilled professionals, log home manufacturing process and kiln-dried engineered and solid logs are second to none in the log home industry. To learn more about Timberhaven Log & Timber Homes, call 855-306-5678 or visit www.timberhavenloghomes.com.

ABOUT THE BSC: The Building Systems Councils of the National Association of Home Builders is made up of manufacturer, builder, and associate members who advocate building with concrete, log, timber, modular, or panelized systems. Systems-built homes are constructed to the same code standards and reflect the same, and often enhanced, quality levels as any site-built construction. The advantage of systems-building is it's done in a fraction of the time, with a fraction of the waste, which can significantly reduce costs. Many systems-built homes also are inherently environmentally friendly adding a "green" label to the finished home.

ABOUT NAHB: The National Association of Home Builders is a Washington-based trade association representing more than 140,000 members involved in home building, remodeling, multifamily construction, property management, subcontracting, design, housing finance, building product manufacturing and other aspects of residential and light commercial construction. NAHB is affiliated with 800 state and local home builders associations around the country. NAHB's builder members will construct about 80 percent of the new housing units projected for this year.
