PRESS RELEASE

Event Recap: Manufacturing Tour & Timber Frame Raising at Future Model Home by Appointment

FOR IMMEDIATE RELEASE: On Wednesday, September 11, Timberhaven Log & Timber Homes, Middleburg, PA, hosted a highly successful event, featuring an exclusive behind-the-scenes Manufacturing Tour and a live Timber Frame Raising. Guests traveled from across the Commonwealth and as far as Virginia, New Hampshire, and Connecticut to attend.

During the event, attendees were given an in-depth tour of Timberhaven's manufacturing facility. While onsite they explored the differences between our Premium-Grade Kiln-Dried Engineered and Traditional Logs and Timbers and witnessed the intricate process by which these materials are manufactured, planed, profiled, pre-cut with exact tolerances, pre-sorted, and inversely stacked for seamless delivery to the jobsite. Participants also learned about our comprehensive range of log, timber, and hybrid home options, gaining insight into how Timberhaven combines craftsmanship with cutting-edge technology.

In the second part of the event, attendees visited Timberhaven's future model home by appointment. There, they observed massive timber frame roof trusses and purlins being set in place, and got an up-close look at the stunning, custom timber frame structure already in place. The framework featured varying timber sizes, all finished with a rustic hand-hewn texture, showcasing the superior quality and attention to detail that defines Timberhaven's homes.

Guests had the opportunity to engage with representatives and the on-site contractors, ask questions about design details, product availability, and other key aspects of the homebuilding process. We thank everyone who attended and helped make this event a success. Stay tuned for future updates as we continue to bring our new model home by appointment to life.

Timberhaven Log & Timber Homes is a leading provider of exceptional quality log, timber and hybrid home packages, dedicated to helping homeowners realize their dreams with unparalleled quality and craftsmanship. With decades of experience, the company offers complete design customization and caters to individual style and architectural preferences, no matter how grand or compact, ensuring that each home is as unique as its
